

Dear Town Council,

We the following Physicians of the Warren Memorial Hospital staff wish to express to the Town Council of Front Royal our deep concerns regarding the possible rezoning of the Riverton Intersection 522 & 55 site.

We feel any commercial development of that site will hinder the efficiency of emergency transport vehicles, physicians and medical staff along the 55 and 522 routes into town. This is already a problem especially at rush hours and holidays. The possibility of adding an additional 10,000 vehicle trips daily we believe will make this problem an unmanageable one.

We send this letter with all due respect. We appreciate your attention to this matter.

Sincerely,

Brian West MD
