

# SAVE OUR GATEWAY

We the people of Front Royal and Warren County wish to preserve the open space at the corner of Rt. 522 and Rt. 55, in order to maintain the natural Gateway to our community.

**We feel that development of this property will:**

- Increase traffic beyond manageable proportions.
- Create major safety problems for A.S. Rhodes Elementary School.
- Permanently alter the unique character of our community gateway.
- Add time to the daily commute of many of our citizens.
- Have a negative effect on the Shenandoah River and Chesapeake Bay Watershed.
- Greatly affect the quality of life of the Riverton Community.
